

## Packing List for a Vacation, Tour or Cruise

## Choose the items that are best suited for your trip.

<u>Prepare for lost luggage.</u> Even though it is rare it does happen – keep in your carry on luggage, three changes of clothes, socks and undergarments; along with all medications and valuables – never put valuables, documents or medications in your check- in luggage. Also put in your carry-on small containers of shampoo, conditioner & makeup (under 3 oz) that will fit into a quart size bag.
